### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 7-10, 13-16 and 21-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Olson et al. Applicant's arguments have been considered but are not deemed persuasive. Applicant argues that the reference fails to disclose a film envelope enclosing only one of multiple cores with indentations. However, the instant claims are directed to a single panel and not to multiple panels. The reference clearly suggests varying the shape of the core for a particular application; see [0028]. It would have been obvious to one of ordinary skill in the art to provide the core of the insulation panel of Olson et al in any shape, such as with a notched edge or beveled corner, depending on the end use of the panel. Concerning the limitation "configured to provide a partial periphery of a combined passageway", the limitation does not distinguish over the prior art since any shape, even a straight edge, may be considered to provide a partial passageway depending on the shape of the panels to which it is combined and depending on the shape of the passageway.

3. Claims 24- 32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Olson et al as applied to claims 7-10, 13-16 and 21-23 above, and further in view of applicant's acknowledged state of the art. The secondary reference discloses that

placing several panels in abutting relationship to cover a specific area to be insulated is well-known in the art; see [0010]. It would have been obvious to one of ordinary skill in the art to place several panels of Olson et al in abutting relationship to insulate a particular object as taught by the secondary reference, and to adjust the shape of the panels as suggested in the primary reference to cover the particular area to be insulated, such as around a passageway in the object.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
